

GUIDANCE MANUAL & AGREEMENT

WFSGI PLEDGE FOR THE
FIFA QUALITY PROGRAMME

ARTIFICIAL TURF
MAY 2026

Preamble

The World Federation of the Sporting Goods Industry (WFSGI), as the global organization representing the sporting goods industry, works to promote fair, ethical, and environmentally responsible trade and working conditions. FIFA, as world football's governing body, is committed to “building a better future for all through football.” Both organizations share the same core values: fairness, honesty, mutual respect, and high ethical standards in the factories that manufacture sporting goods. These values reflect the fundamental principles of sport itself.

To support these shared goals, WFSGI and FIFA have created the WFSGI Pledge for the FIFA Quality Programme. By signing this Pledge, companies commit to eliminating poor working conditions in the production of FIFA certified products. By signing the Pledge Form, the proxy holder of the Manufacturing Plant producing for FIFA Licensee(s) confirms that they have read, understood, accepted, and agree to fully comply with all requirements set out in the WFSGI Code of Conduct.

In addition to submitting a completed Pledge Form, the Manufacturing Plant producing for FIFA Licensee(s) must provide an audit report that is not older than 12 months. This report must be issued by an internationally recognized and experienced auditing company that is a member of the Association of Professional Social Compliance Auditors (APSCA). The audit report must contain sufficient verified information to demonstrate full compliance of the factory with the WFSGI Code of Conduct.

To ensure ongoing monitoring of labor conditions, the WFSGI Pledge must be renewed every year by the Manufacturing Plant producing for the FIFA Licensee(s).

Please note that WFSGI acts solely as the administrative and handling agent for FIFA. As a result, WFSGI's responsibilities and liabilities are limited to the scope described in Section 6 below.
